Oktoberfest Sale! – Join us for Oktoberfest on October 1 and 2, with \$10 off all beer cars. The Coors Light Silver Bullet set will be on the layout. Come by and show off your lederhosen!

YORK – Once again in mid-October, Lilli will be going to the largest train meet in the country, the TCA meet in York, PA. She will be seeing new products from MTH and Lionel as well as from other manufacturers, and will be taking the pulse of the hobby in general. She will undoubtedly be bringing back a wealth of information, which we are all looking forward to her sharing with us, and she is sure to have some surprises.

V&T News!

- The RailKing V&T items have all arrived, and we have a limited number of them available. Come pick yours up today!
- We have several V&T mirrors in the store. These unique mirrors light up, and have beautiful wooden frames. They are priced at \$97.50.
- MTH is talking about producing a McKeen car in O gauge sometime in the future. It looks like a boat, but runs like a train.

New authorized service person! Just back from the most recent MTH seminar, Eugene Wiedenbeck is now an authorized MTH repair person at Reno Rails.

Ready-To-Run Sets – RailKing Ready-to-run sets will begin arriving soon, so if you wish to reserve one, give us a call and let us know. These sets are great for around the tree, and are all fully equipped with MTH ProtoSound 2! They are also the first sets to come with the new DCS Remote Commander remote control.

Did anyone order these?

Due to cracks in the floor, we don't know whose this is:
We received a Missouri Pacific 50' Hi-Cube Boxcar 6-car set (20-90528).

Buildings! We have received a number of new buildings from MTH, including a country passenger station (30-90354), and two styles of country houses (30-90331 and 30-90330), and an operating transfer dock (30-9110), and a large passenger station with dual platforms (30-90094).
Come in and see it newly installed on our layout!

Reminder: Some products will be limited in their production, so if you see something you want in the catalog, remember to request it, and take advantage of our back-order and layaway policy.

Website Changes: We now have the majority of our inventory listed on our website, accessible at http://renorails.com/currently_in_stock.htm. It is updated weekly, and will continue to be expanded.
